DATE November 30, 1984 _____

DEPARTMENT _____

Re: 1222 S. Cedarbrook - oil in the street

This office received a complaint (11-23-84) about oil being dumped or spilled in the street in the 1200 block of South Cedarbrook. Upon investigation it was found what appeared to be diesel fuel spilled. The diesel had collected on the grass of the residence at 1207 S. Cedarbrook. It appeared that the diesel had been carried to 1207 S. Cedarbrook by storm water runoff.

At 1222 S. Cedarbrook Mr. David Bankson parks his trucks for his business (Wash on Wheels). It appears that the diesel could have been from spillage out of one of Mr. Bankson's trucks. This could not be proven. No cleanup was required.

Karen Chandler and I returned to 1222 S. Cedarbrook and talked to Mrs. Bankson (11-26-84) and told her that they could not do any washing at their residence, and that they should be careful about spillage out of their trucks. Mrs. Bankson indicated that they only drain clear water out of the tanks of their trucks to prevent them from freezing.

This office will monitor this situation in the future.
